Letter to The Editor

August 23rd, 1950.

The Editor,
Irma Times,
Viking, Alberta.

Dear Sir:

The Irma and District Board of Trade wish to use the medium of your paper to express their sincere appreciation for the great co-operation and support they received at their recent sports in IRMA.

A special thanks must be extended to Charlie Savard who took down his fence and lent us his land for the machinery display, also to all those from the country who brought in horses, rigs, products, etc. to supplement our most successful parade. We must all realize that it takes every one of us to make a successful sports and whoever contributes anything he or she work, money, parade participation or attendance at our big day deserves a lot of credit.

The executive feels that by showing such a keen enthusiasm as you have these last two years that future successes are guaranteed. And by showing the same whole-hearted support through out the year we will make our Village and District not only equal to any, but superior to all, villages of our size.

The personal thanks of the parade committee is extended to all those who participated, no matter how small you thought your contribution was, we appreciate it a lot and beg you to accept our invitation to participate next year. We made mistakes last year which we corrected and we noticed errors this year which we shall endeavor to correct next year, so let's all start planning for future, bigger and better parades. We also add to this the personal thanks of every committee for the grand sportsmanship and the competition shown by all participants in the different sporting events. Also a special mention and great thanks to those who so ably did the organizing and carried the load of service. Financially the booth did very well and it certainly showed a large percentage of the clear profit of the day. Thanks must not be forgotten to the gate keepers who sweated in the hot sun so that we could all make the day inside the grounds as long as possible. Our greatest thanks and appreciation is also extended to the softball umpires who gave up their own pleasures on that day so that the rest of us may enjoy ourselves more. Also to the numerous other helpers, etc. go our heartfelt thanks — we need you all and hope that you will give us the privilege of helping you people in some of your community efforts.

We made a net profit on the day of \$400.79 which is to be turned in to supplement the ever-growing Arena Fund. This is to be compared with \$245.45 which we netted last year. We're getting bigger and better every year and will continue to do so as long as it is humanly possible, in our attempt to provide a sports worthy of the people in our district.

Yours truly,
IRMA AND DISTRICT
BOARD OF TRADE,
R. B. Kirkman, Sec.-Treas.

Red Police State Gives Preview Of Conditions Under World Dictator

Dana Adams Schmidt of the New York Times has written of his experiences within the Russian-controlled land he has been making a war to dispel any ideas we might have of life in the Soviet order of things.

"The most characteristic thing about a police state," says Reporter Schmidt, "is that people disappear. It is difficult for the casual visitor to understand when he enters the office of a business associate, the desk in the corner is empty because the secretary who occupied it was arrested last week, or that the girl at the opposite desk is the police spy who denounced her, and who will shortly make a report to the police on the visitor's conversation with the manager."

Schmidt said that this condition of affairs is weakening to the minds of all who are under the police state powers.

Reporter Schmidt could not write until he was safely out of Czechoslovakia. Lest he be the Communist Secret Police were about to arrest him on some trumped up charge, he left the country and once out of range of his Communist captors he wrote fully of his experiences.

"You have to stay around and try to know people before you feel the situation—feel sick and weak when you learn someone you now have been arrested, nauseated by a note summoning you to a police station, angered every time you see one of those unmistakable men in brown leather coats (the Czechoslovak Secret Police) ... I know of persons who have been beaten, persons who have been questioned for 24 hours ... where he found of other people being beaten in the next room could be heard."

More About Margarine

Production of margarine in Canada in 1949 totalled 73,953,000 lbs. Much of the material for this production was imported from the United States. It is estimated that the production of margarine has supplanted the market in Canada for butter to the value of \$50 million.

The September meeting of the Irma W.I. will be held at Mrs. Gunn's home on Thursday evening, September 7 at 8 p.m. Mrs. Prosser will have charge of the program. Hostesses, Mrs. Zook and Mrs. Targett. Mrs. Charter will have charge of the raffle. Roll call, "One Cent for Each Tooth."

Dairy Farmers Plan Publicity To Sell Surplus

Butter is trading at a steady price level under the government support, though production is now at the seasonal peak and greatly exceeds needs in Canada.

The Dairy Farmers of Canada, anticipating a surplus of butter this winter and spring, during the month of June, took 1c per pound from all the butter produced in Canada to pay for the cost of an advertising campaign to increase butter and dairy products consumption and so to improve the butter market. This organization believes that an additional month's consumption of one-third pound of cheese, 4 1/2 pints of milk, one-half pound of concentrated milk and one ice cream cone, would leave little in the way of milk surplus. The computation is based on 1949 figures which showed a surplus of slightly more than a billion pounds.

Organization officials contend that the milk surplus will upset the stability of the entire dairy industry. The Dairy Farmers will soon begin a sales promotion campaign. It is to be hoped that it will be successful in finding a good market for all the Canadian production in Canada.—Market Ex.

WEDDING BELLS

HINECKER-GWINN

A pretty wedding took place in McDougall United church, Edmonton, on August 1, when Esther May Gwinn, formerly of Irma, became the bride of Floyd Richard Hinecker, of Edmonton.

The ceremony was performed by the Rev. W. Bainbridge.

Given in marriage by the groom's father, Mr. Fred Hinecker, the bride wore a floor-length gown of white satin with a beaded sweetheart neckline and lily-point sleeves. Her long veil was held in place by a beaded coronet and she carried a bouquet of red roses. Her jewelry was a pearl necklace and earrings. Attending the bride were her sister, Miss Doreen Anderson, of Lindberg, and Miss Isabella Jackson, of Irma.

Doreen, as maid of honor, was dressed in blue taffeta with a net overskirt, while Isabella chose blue sheer styled on princess lines. Both attendants wore shoulder-length veils of blue net fastened by bandeaux of flowers and carried bouquets of pink carnations and white sweet peas.

The bridegroom was attended by his uncle, Eric Baldwin, and his brother, Roy Hinecker.

A reception and dance was held for about 30 guests in the Jasper Place Community Hall where the bride's table was centered by a three-tiered wedding cake.

Mr. and Mrs. Hinecker will make their home in Edmonton.

Norma Gultner of Irma attended her sister and chose grey suit with blue accessories. Her flowers were pink carnations.

After the ceremony a reception was held for about 40 guests at the home of Mr. and Mrs. J. W. Stinert. The bride's table was centered with a three-tiered wedding cake flanked by bouquets of asters. The room was decorated with pink and white streamers.

Urge Driving Courses In Schools

An effective way of reducing accidents on Alberta highways would be through the introduction of driver training courses in the high schools, it is contended by officials of the Alberta Motor Association.

School board members have expressed renewed interest in the possibilities of these courses. As the department of education has not been favorable to the suggestion, some school boards have considered the feasibility of operating such courses on an extra-curricular basis.

Already it is being talked of as a possibility for the next school term. Definite action along this line can no longer be delayed, it is contended.

Particular attention is drawn to the experience of the state of Delaware, where these courses have been operated in the high schools for some years. For example, a report shows that only three per cent of trained drivers had car accidents, compared with 14 per cent who didn't take the course in school. Furthermore, only four per cent of trained drivers received traffic violation tickets, compared to 27 per cent for untrained drivers.

The results have been so satisfactory that all public high schools in Delaware now have driver training courses.
